Joe Clare

--

Washington D.C. Metro Area | Telecommunications

[View Full Profile](#)

"John was very helpful and the go to man for any specialty information that pertained to wireless data applications. When John accompanied me on sales calls I felt very confident in his capability to speak intelligently and provide solutions for any wireless data issues we faced, whether we were sitting in front of a General Manager, Vice President or Telecom Director. John definitely provided product knowledge that I lacked to help me perform my job at a higher level." *May 15, 2008*
